Vacaville USD’s Transitional Kindergarten Program Information

Vacaville Unified School District is pleased to announce it has expanded the Transitional Kindergarten program for the 2012-2013 school to both Fairmont and Hemlock schools. All students in Vacaville Unified School District who turn 5 years old between November 2 to December 2 are eligible for this program. Transitional Kindergarten provides young learners with a high-quality early education at no cost to parents for students who missed this year’s cut-off date for kindergarten due to California’s new age requirement.

Transitional Kindergarten provides the first year of a two-year kindergarten experience, which serves as a bridge between preschool and kindergarten. It is intended to provide young learners with an opportunity to learn in an environment tailored to meet their academic and social needs. Classes will be held every afternoon for three-hours and twenty minutes.

With schools closed for the summer, parents should register at the district’s Educational Services Center on 401 Nut Tree Road. Parents may print enrollment forms from the district’s website, www.vacavilleusd.org.

When presenting enrollment forms, parents need to bring the following:

- birth certificate
- immunization record
- proof of a physical exam after your child was 4 years, 3 months old or written proof of an appointment for an exam
- proof of residence such as a PG&E bill or cable bill
- proof of a dental exam completed within the year prior to registration. Proof of a dental exam must be supplied to the school by May 31, 2013.

A representative from the Vacaville Unified School District will contact parents who have already enrolled their children. If you have any questions, please call Charmaine Thompson at 453-6111 or e-mail her at charmainet@vacavilleusd.org. For further information about Transitional Kindergarten in the Vacaville Unified School District, please visit www.vacavilleusd.org.

Don’t miss out on this exciting opportunity to provide your child with the gift of time to learn important social, emotional, and academic skills.
